

Bridging communities, carriers, and critical infrastructure.

About Us Bridged Broadband is a regional fiber network operator delivering high-capacity transport, interconnection, and connectivity services across Missouri and the Midwest. Built as a consortium network, Bridged Broadband integrates the reach of multiple regional broadband providers into a unified platform designed to deliver scalable, low-latency, high-bandwidth connectivity for wholesale and enterprise customers.

Bridged Broadband's network supports wireless carriers, enterprises, government, education, healthcare, and financial services organizations, enabling reliable access to cloud platforms, carrier ecosystems, and national interconnection infrastructure. Through its phased network expansion strategy, Bridged Broadband is building the digital foundation required to bridge the gap of underserved and rural communities to the modern digital economy.
